

UAA ANNUAL REPORT ON LEADING INDICATORS AS OF FALL 2024

Purpose and use: Annual reports on the student achievement metrics serve as status reports for performance on each measure. Sharing these reports keeps the institution focused on and accountable for the measures. They show progress toward goals and help identify areas that may need additional work or investment. Disaggregating data allows the institution to track efforts to close achievement and performance gaps. These reports are posted on the website for dissemination to governance and leadership groups to be used for continuous improvement to inform planning, decision making, and allocation of resources.

This report includes information on two measures identified as leading indicators for the student achievement metrics: (1) completion of Tier 1 General Education Requirement courses (GERs) within the student's first 30 credits; and (2) course pass rates by course level. Each of these signals a level of progress toward completion.

LEADING INDICATORS: THE BIG PICTURE

Long-Term Trend

- (1) Overall, the percentages of first-time baccalaureate freshmen who completed Tier 1 GERs within their first 30 credits in their first two years, or Tier 1 GER completion rates, have been improving steadily. Tier 1 GER completion rates for AY2023 were the highest in the past five years, at 53% for full-time and 42% for part-time students (Figure 5.1).
- (2) Overall, lower-division, upper-division, and graduate-level course pass rates have fluctuated around 78%, 88%, and 93% respectively with a slight recovering trend (Figure 5.2).

Trend in Most Recent Cohort

- (1) Compared with AY 2022, Tier 1 GER completion rates for the AY 2023 reporting cohort increased by 8.6% for full-time and 8.7% for part-time students (Figure 5.1).
- (2) Compared with Fall 2022, course pass rates in Fall 2023 increased by 2.0% at lower division and 0.4% at upper division by decreased by 0.6% at graduate level (Figure 5.2). Full-time students had higher pass rates than part-time students at all course levels (Figure 5.3).

COMPLETE TIER 1 GENERAL EDUCATION REQUIREMENT COURSES (GERs) WITHIN THE 1ST 30 CREDITS

DEFINITION: The percentage of baccalaureate degree-seeking undergraduate students who complete their Tier 1 GERs within their first 30 credits in two years from when they entered as first-time freshmen. Includes only first-time to college UAA students who reach sophomore class (30 credits) and excludes transfer-in or returning students. Tier 1 GERs include foundational oral and written communication and quantitative skills courses.

RATIONALE: Students who complete key general education courses early in their academic careers are retained and graduate at higher rates. Measuring the early completion of these requirements and disaggregating those data can inform planning, decision making, and allocating resources to programs and services designed to mitigate gaps in achievement and equity.

PEER COMPARISON: There are no data sources for peer comparisons on this measure.

COURSE PASS RATES BY COURSE LEVEL (UNDERGRADUATE LOWER-DIVISION, UNDERGRADUATE UPPER-DIVISION, AND GRADUATE LEVELS)

DEFINITION: The percentage of students who receive a passing grade (A, B, C, P) for all undergraduate students and (A, B, P) for graduate students in a course offered by a program compared to the same rate calculated for all courses at that level. Based on a 5-year trend. Included in the denominator for undergraduate courses are the grades D, F, W, I, NP, NB. Included in the denominator for graduate level are the grades C, D, F, W, I, NP, NB.

RATIONALE: Low pass rates are one critical way to identify courses that are barriers to student success and degree completion. Failing key courses correlates with low retention and more major switching. Mitigation strategies can be internal or external to the course itself, including, among other things, the use of high-impact pedagogical practices, appropriate placement, course sequencing, tutoring, and other means to ensure student success within a particular course. This metric and the disaggregation of the data can inform planning, decision making, and allocating resources to programs and services designed to mitigate gaps in achievement and equity.

PEER COMPARISON: There are no data available for comparisons with UAA peers at this time.
